

## PIPESCAN II Kit

Revision 1

Advancing Coating Defect Assessment Technology (DCVG) for the pipeline industry

### Complete Kit

- **PIPESCAN II DCVG** equipment is now available. This equipment has been developed following extensive research, based on field surveys and customer interaction which is ongoing to ensure the industry benefits in improved quality control and pipeline coating integrity assessment.
- Equipment is supplied in heavy duty padded field case to ensure safe transportation.
- Electronic components in meter, switcher and bias boxes are subject to a 12 month warranty period.
- Full range of spares is available.
- Designed and Manufactured by Corrosion Control Engineering Pty Ltd

### A PIPESCAN II Kit consists of the following:

- **PIPESCAN II** Meter and charger
- PIPESCAN II Meter protecting padded field case, c/w waist and neck straps and clear weather resistant cover.
- PIPESCAN II Switcher and charger
- Two (2) Biased 1200 Probe Box and charger
- Two (2) Meter to Biased Box silicon cables and connectors
- Two (2) three stage Non-Polarisable Probes
- Two (2) Probe Handle Adapters
- Four (4) Timber Tips in PVC holder c/w "o" rings
- Heavy Duty Pelican Equipment case (600 x 450 x 220 mm) to ensure complete protection in transit
- Optional – One piece probes
