

CAPABILITY STATEMENT

Cathodic Protection for Civil & Marine Structures - Bridges, Wharves, Jetties, Piling & Steel Reinforced Concrete.

Corrosion Control Engineering (CCE) is Australasia's leading corrosion engineering company specialising in all aspects of Cathodic Protection (CP) and related fields. The CCE Group commenced operation in 2001 and has grown to 8 offices and 90 staff located throughout Australia and New Zealand.

Our engineers and technicians are experts in the area of corrosion mitigation and asset preservation for buried, immersed and steel reinforced concrete structures. Each of CCE's regional offices has a Principal Engineer with between 30-40 years' experience in cathodic protection and we are proud of the fact we have more NACE Certified CP Technicians, Technologists & Specialists than any other company in Australasia.

AT CCE WE USE OUR KNOWLEDGE, EXPERIENCE AND TRAINING TO PROVIDE ASSET OWNERS WITH COST EFFECTIVE SOLUTIONS TO PROTECT PEOPLE, INFRASTRUCTURE AND THE ENVIRONMENT FROM THE DESTRUCTIVE EFFECTS OF CORROSION.

CCE's Services Include:

- Cathodic Protection (CP) design, materials supply, installation and commissioning for a variety of civil, marine and steel reinforced concrete structures including bridges, piles, wharves & jetties.
- Cathodic Protection consulting, auditing, troubleshooting and routine maintenance.
- Independent review of third party CP designs, specifications and reports.
- Cathodic protection system remote monitoring.

In addition to the above Cathodic Protection related services, we also have an in-house Corrosion Consultancy division offering the following services:

- Condition Assessment
- Asset Integrity Management
- Corrosion Failure investigations

Our mission...

Is to provide our customers with quality engineering solutions to ensure the safety, reliability and longevity of their assets.

As Australasia's leading cathodic protection specialist, we are committed to the ongoing training and development of our staff to ensure the highest level of service is delivered.
